

TOTAL COMMITMENT TO AGRICULTURE

Bush Tyres supply a wide range of Michelin and Kleber agricultural tyres to suit the requirements of today's farming. A comprehensive range of Kleber agricultural tubes are also available. In addition to farming we also supply the Michelin Compact Line range of tyres for the demanding needs and specifications of the construction industry.

MICHELIN, your partner in today's agriculture.

The world of agriculture has seen considerable progress in recent years. Engine power, tractive effort, speeds and loads continue to increase. They in turn bring about the development of new improved equipment, requiring an ever higher standard of performance.

In answer to this evolution and in conjunction with manufacturers and farmers Michelin has developed a complete range of tyres which respect the soil and contribute to maximum productivity.

Bush Tyres supply a wide and comprehensive range of Kleber agricultural tyres and tubes.
