

### Made for your car...

In Europe today, nearly every third car that rolls off the production line is fitted with Continental tyres, making Continental the number one original equipment manufacturer in Europe.

To Continental, this distinguished position and the trust shown in our tyres by all the major premium manufacturers is the best proof of the recognised quality of our products. If the world's top car manufacturers are willing to place their trust in us, so can you.

### Your safety first...

For every car to be launched on the market, we work closely with our automotive industry customers to carefully plan the tyre down to the last detail. Requirements and requests may vary, but there's one thing that always remains the same: safety first. There is nothing more important to us or to our customers than your safety. Thanks to the innovative ideas of our research and development team, and their several decades of experience, every Continental tyre is able to combine maximum safety with individual requirements and optimum ride comfort.

Our business activities focus on innovations for enhancing safety, developing eco-friendly mobility and maximizing comfort and convenience on the road.

### Your tyres and so much more...

Continental is the number one tyre manufacturer in Europe in the passenger and light truck tyre market and number four worldwide. Continental is the market leader in cold weather tyres and automobile original equipment. Last year, 107.4 million tyres were produced across 22 locations in 14 countries.

### Best Buys from Continental...

Continental achieved Best Buy status in the Which? Tyre test 2008 for ContiSportContact 3 (225/45R17), ContiPremiumContact 2 (195/65R15) and ContiEcoContact 3 (175/65 R14).
