

*The power
of energy*

Motorcycle

- Choose from Dry Charged, **GEL Liquifix** and **VRLA** technologies.
- Vibration Resistant.
- Acid packs are included, separately in the box for extended shelf life.
- High 'cranking' performance (*releases more power for the first 5 seconds*)

Terms Explained -

VRLA - 'Valve Regulated Lead Acid'

GEL - Electrolyte is a GEL block.

Both of these technologies enable a high level of vibration resistance, and 'cranking' power for electric start vehicles.

DRY CHARGED - Standard Lead Acid

Associated Accessories -

NUMAX - 'Connect and Forget' Motorcycle Battery Charger.
