Why you should shop with us - both online and in-store

## ONLINE RETAILER

### Buying tyres online

You need to correctly inspect the vehicle for needs and tyre size, make, types and specification. Go on a website and select a fitment.

Agree the number of tyres needed, a cost for tyres and services – payment upfront.

Wait for the tyres to arrive. Go to designated fitting centre when the tyres are in stock.

### Questions for your online tyre store
