
THE PIRELLI PERFORMANCE CLUB

What is the Pirelli Performance Club?

At Pirelli we are as passionate about control as we are about performance. That is why we have developed Pirelli Performance Centres. Each depot offers an unrivalled level of expertise when it comes to recommending, fitting and balancing high performance tyres. Pirelli Performance Centre status is not easily earned. Only after passing a stringent auditing and testing programme can a dealer become a member of this elite group of companies.

The Members

The Pirelli network currently stands at 44 depots, more information can be found at www.pirelli.co.uk/ppc

What it means to the Customer

Pirelli, the world leader in high performance tyres, has developed a network of dealers targeted at drivers of high performance vehicles. We ensure that a Pirelli Performance Centre is technically capable of servicing high performance vehicles and holds stock of all key performance sizes. Drivers of high performance vehicles can visit a Pirelli Performance Centre with confidence.
